

NORTHERN TRIBUNE.

SATURDAY, OCTOBER 21, 1882.

Specimens of corn raised by Henry Crump, left in our sanctum by G. P. Langdon, show that corn can be raised in this county. No better specimens of corn can be found anywhere.

The dredge commenced work in front of Baker & Sons's dock Thursday afternoon, and found it hard digging, the bottom being hard pan, about as hard to dig as rock.

We would advise some of the creditors of our cotemporary to call quick. He advertises that he has \$50 he wants to throw away, and we are decidedly of the opinion he had better put it where it will do him some good.

The mandamus to the Board of Supervisors made some of the members sick. They felt so bad that they were not able to attend Wednesday afternoon and some of them had not fully recovered their equilibrium Thursday morning.

Among the names we have heard mentioned for candidate for sheriff on the Democratic ticket, in place of John McIntosh, declined, are Thomas Bentley and George Paquette. William Herrington, the Republican candidate, will be the next Sheriff all the same.

Last week our cotemporary was very indignant because reports were in circulation claiming that Mr. McIntosh, Democratic candidate for Sheriff, was not a citizen. This week it humbly confesses the reports were true, and that this fact led Mr. McIntosh to decline the nomination.

Senator Conger will address our citizens upon the political issues at the town hall, Thursday evening, November 2nd. A good audience should greet the Senator. He has long been one of Michigan's ablest representatives at Washington; serving several terms in the House and now as Senator.

Who is ex-Judge James Brown, of Cheboygan? The Detroit Evening News says he occupied the bench with Judge Chipman, Wednesday, in the Superior Court at Detroit. It must be the man who decided that the Board of Supervisors had as good a right to decide who was entitled to a seat in that body, as the Congress of the United States had to decide who was entitled to a seat in Congress.

Supervisor Robinson is talking of building a saw mill at Levenington, a station on the Mackinaw division of the G. R. & I. railroad, where it crosses the Cheboygan and Cross Village state road. The railroad company has platted a village at that point, and Mr. Robinson owns quite a tract of land at the same point, and is thinking of having a part of it platted. The station is in the midst of a fine farming country, and there is no reason why Levenington should not become an important station.

There was a little jamboree on the schooner Fleetwing, Wednesday, between the captain and one of the crew in which the captain was attacked by the sailor with a case knife, and promptly responded by knocking the sailor down with a mallet. A warrant was sworn out against the captain, and he was brought before Justice Taylor, pleaded guilty, and fined \$1 and costs. After the captain paid the fine the sailor wanted to know of the justice where his money, for wages, was coming from, and was somewhat disappointed when he found out that the question of wages was not a part of the suit.

Charles R. Kniffin, a well known citizen of our county, and the first postmaster at Freedom, committed suicide by shooting himself through the head with a revolver last Monday forenoon. He had been complaining for some time of suffering from a disease of the kidneys and had been very despondent at times but no person anticipated that he would take his own life. That morning he sent a fish boat down with several packages of fish for A. P. Newton, and the men say when they left he appeared as cheerful as usual and were shocked to hear that he had killed himself. He leaves a wife and four children to mourn the sad event.

For some time past there has been considerable talk between the Gifford Bros. owners of the tug C. M. Gifford and Capt. Swartz of the tug Cygnet, as to which was the fastest tug. Thursday afternoon it culminated in a bet of \$10 a side being made and a race to decide the matter. Both tugs coaled up and proceeded across the straits to near Bois Blanc Island where the start was to be made, the course being from the starting point to McArthur Smith & Co's dock, the distance being 4 or 5 miles. A fair start was had and for 2 or 3 miles they kept side by side, neither gaining upon the other, but as they neared the pier the Cygnet began gaining and came up to the dock three or four lengths ahead.

The dredge struck good digging yesterday, and is scraping mud at a lively rate.

Have you seen the comet? If not get up some clear morning between four and five o'clock and view it.

We hear it rumored that an effort is to be made to form a stock company and build a first-class large hotel in our village.

William Van Valkenburg's increasing business demands larger quarters, and hence he is putting up a building of considerable size.

The ticket officer at the railroad station was burglarized Saturday night, entrance being gained by breaking a light of glass. The venture only realized about 90 cents.

In the 43 Democratic counties of Ohio in the last 10 years, 27 Democratic defaulters cost the \$781,000, while the 45 Republican counties had but three defaulters, all of whom made their deficiencies good.

From the general endorsement Israel Canby, Republican candidate for Representative in the Legislature, is receiving from the press of the district we should judge that the committee chose wisely when they selected him.

I. C. A. Gallagher was not Supervisor of the township of Benton, and the Supreme court says he was not, what right had the Board of Supervisors to vote to pay the bills he presented. Every Democrat on the board voted to pay Mr. Gallagher's account as presented.

The Democrats are awakening to the necessity of doing something and not let things go by default, and have at last announced a speaker for Cheboygan, Hon. Eugene Pringle being billed to speak at the Town Hall next Thursday evening. All the talking they can do will not save their ticket.

Rev. Dr. Hartley commenced a series of Sunday evening lectures at the Congregational church last Sunday evening and was greeted by a large and attentive audience, all of whom were highly pleased with the lecture. To-morrow evening he will deliver the second of the series. Subject: "Small Things."

The Atlantic took on 625 bushels of potatoes last Wednesday for Cleveland. They were shipped by J. C. Reif, an outsider, who purchased them of F. E. Martin, of Indian river. Mr. Reif was feeling pretty blue over his trade, the price of potatoes at lower lake ports having dropped since he purchased, and he anticipated considerable loss.

Our cotemporary should be consistent. In one place this week it says the Tribune "revived an old process abandoned as no good by the printers of twenty years ago." Elsewhere it says we "tried to infringe on J. E. Caps' patent process for printing in colors." If we revived an old process abandoned twenty years ago, we certainly did not infringe on Caps' patent.

We understand the foreman in charge of the work being done on the water works pipes claims that the gauge at the water works is not correct, and that when it showed a pressure of 160 pounds the actual pressure was greater. The gauge was tested by both gauges in use on the boilers, both of which are new, and supposed to be correct, and according to each of them was shown to be correct.

Our cotemporary copies an article from the Bay City Call which intimates that Watts S. Humphrey declined being a candidate for Representative from this district on the Republican ticket because he feared "the other fellow would be sent to make the laws." Was the editor of the Call as well posted on the political situation as Watts S. Humphrey, he would not display his ignorance by any such twaddle.

What the people of Cheboygan county would like to know is, what right had the Board of Supervisors to employ attorneys to defend C. A. Gallagher before the Supreme court in the Supervisor case. Our cotemporary said some weeks ago that Mr. Gallagher was backed by unlimited means, which raises the question, was it prearranged among the Democratic members of the Board that they should vote the means to defend the suit, and thus entail the cost of the contest, upon the part of Mr. Gallagher, upon the people.

A pressure of 160 pounds was put on the water pipes this week and the result was a few leaks were found. These they have been remedying this week. One singular circumstance was developed. At the test, when the pressure stood at about 140 pounds, in front of A. P. Newton's store there was quite a stream of water running. The next day the pipe at that point was uncovered and a pressure put on to see where the leak was, and notwithstanding the pressure was run up to 140 pounds not a leak in the pipe could be discovered and the mystery is, where did the water come from during the test, when it leaked so freely.

Post & Van Arsdale's new store is approaching completion. The shelving is being put up and the inside work is being pushed to completion as fast as possible.

Rev. R. M. Thompson preached to a fine audience last Sunday evening at the Town Hall. The capacity of the hall was well tested. Our citizens who remain away from the different churches are the losers.

The Board of Supervisors having decided not to make two separate offices out of County Clerk and Register of Deeds, the Republican County Committee held a meeting Friday evening and decided that J. C. Wooster should be the candidate.

Rev. A. J. Richards of Bay City will hold quarterly meeting services in the Methodist church to-morrow. Preaching at the usual hours in the morning and a love feast at 6 o'clock P. M. and preaching at 7 o'clock, followed by the sacrament of the Lord's Supper.

M. W. Parish, Michigan Central telegraph line repairer, with a force of men came up this week to construct the land connection of the marine cable about to be laid from Mackinaw to St. Ignace. About five miles of line will be put up, and the same length of cable laid.

We notice on exhibition in the window of H. Chamber's a finely executed portrait in ink, by Will L. Beebe, a Detroit artist. As Mr. Beebe will canvass our village for work in his line, we would call the attention of our citizens to this beautiful specimen of his work.

A lively runaway yesterday afternoon. A horse belonging to J. M. French, attached to a buggy, started from the Grand Central and run down Main street to Mackinaw road, and out that road some distance before it was stopped. The top of the buggy was broken off and the horse received a bad cut on one hind leg.

There is a report in circulation that Wm. Harrington, the Republican candidate for sheriff, has pledged himself to the appointment of certain parties as his under officers. Mr. Harrington requests us to state that he has made no pledges to any person. He also says that if elected it is his intention to live in the sheriff's residence and have personal charge of the jail.

The young man Micheand, mentioned last week as being probably fatally injured by a falling tree, we are glad to state is in a fair way to recovery, although he had a close call, the tree falling across his back, pressing him tightly to the ground for over half an hour before he was released. He is also known by the name of Isabel, that being the English of the name. Obed Isabel being his father.

A specimen suit of the new uniform for the cornet band was received yesterday. It was made for Professor Sweet and fits to a charm. The members of the band and all who have seen it are well pleased both as to material and style and say that it is elegant. We understand the remaining suits will be ordered at once. Our citizens will be called upon to contribute to aid in paying for the suits and we feel confident will respond liberally.

Misses button shoes \$1.25 at Clements.

Oh, say!

Have you seen those ladies hand made shoes at Clements? They are immense.

Latest novelties in real jet jewelry at Mrs. M. B. Champion's.

The latest fall styles in hats and bonnets at Mrs. M. B. Champion's.

What a Former Invalid Said.

"I suffered for years from an exhaustive weakness, and was fast approaching consumption. I felt that insanity and a premature grave was inevitable; but thanks to Brown's Iron Bitters, I am again restored to perfect health of mind and body." If you, too, are ill, may not this remedy restore your health?

NOTICE TO TIMBERMEN.

I will be at the office of the Northern Tribune on Oct. 25th, 1882, for the purpose of meeting anyone that may have timber that they wish to have converted into lumber. I have a saw-mill (capacity from 15 to 20 M feet per day) for which I wish to find a location.

SAMUEL GREEN.

Registration Notice.

IN compliance with an act of the Legislature, approved May 11th, 1881, there must be made an entire new registration of all the qualified voters of the Township of Benton. Therefore, all that may now be qualified to vote at the next general election to be held on the first Tuesday of November next, are hereby notified that the Board of Registration for said township of Benton will be in session at the Council room, in the Town Hall, in the village of Cheboygan, on Saturday, November 4th, 1882.

S. HARRIS EMBURY, Township Clerk. Dated Cheboygan, Oct. 17th, 1882.
